DETAILED ACTION

Election/Restrictions

Note that all non-elected claims are not considered generic such as claim 107 wherein centering element (guide means) is not in the anterial (anterior) portion.

Applicant is reminded that this application contains claims 100-102 and 105-114 drawn to an invention nonelected with traverse. A complete reply to a final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Allowable Subject Matter

Claims 103-104 are allowed.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 98-99 and 115 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 98, "and spaced in a medio-laterial direction from said central portion" is indefinite. Referring to the elected embodiment shown in figures 1-3, the guide structure 22 is spaced from a central portion but is not spaced or offset in a medio-lateral direction as clearly shown in figure 2 wherein is directly in the middle. Please clarify.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
